PROFESSIONAL SUMMARY

Frontend Developer with 2+ years of experience building scalable, high-performance web applications using React.js and Next.js. Proven ability to improve application performance by **25%** and development efficiency by **60%** through reusable component systems and optimized architecture. Strong focus on accessibility, SEO, and delivering seamless user experiences.

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, Tailwind CSS, ShadCN/UI, Material-UI, Redux, React Hook Form, Zod

State Management: Redux, Zustand

Tools: Git, Storybook, Chrome DevTools, VS Code, REST APIs

Key Concepts: Performance Optimization, SEO, WCAG Accessibility, Responsive Design, Data Structures & Algorithms (DSA)

EXPERIENCE

Frontend Developer

1Lattice

April 2024 – Present

Gurugram, India

- Developed scalable, high-performance web applications using React.js, Next.js, and TypeScript
- Built a centralized reusable UI component library with Tailwind CSS, ShadCN/UI & Storybook, improving development efficiency by **60%**
- Optimized application performance using code-splitting, lazy loading and memoization, reducing page load time by **25%**
- Integrated secure REST APIs with Redux for efficient real-time state management
- Enhanced SEO, WCAG accessibility, and cross-browser compatibility across projects

Software Developer Intern

1Lattice

Feb 2024 – April 2024

Gurugram, India

- Contributed to frontend feature development using React.js and Next.js
- Assisted in REST API integration and Redux state management
- Participated in code reviews and debugging to improve application quality

PROJECTS

1Lattice Official Website

[Live](#)

Developed and deployed the official company website using Next.js and Tailwind CSS, delivering a fast and scalable user experience. Implemented SEO best practices and server-side rendering, improving search visibility and organic traffic. Ensured WCAG-compliant accessibility and cross-browser compatibility.

PraxisGA Official Website

[Live](#)

Built a responsive corporate website with pixel-perfect UI using React and Tailwind CSS. Optimized performance through efficient asset handling and clean component architecture. Applied SEO and accessibility standards to enhance user engagement and brand visibility.

Agent Web Application (1Network Partner)

[Live](#)

Designed and developed a scalable real-time dashboard with efficient state management using Redux and Zustand. Improved UI responsiveness by **30%** through optimized rendering and API handling. Implemented dynamic, validated forms using React Hook Form and Zod.

Respondent Web Application (1Network Member)

Developed a secure, fully responsive application with authentication and REST API integration. Built reusable and modular UI components, improving scalability and reducing development time across features.

[Live](#)

MediQ Dashboard

Built a real-time analytics dashboard with role-based access control and optimized data handling. Implemented advanced data visualizations, including Sunburst and Marimekko charts, enabling better data insights and decision-making.
