SUMMARY

Frontend Developer with 2+ years of experience building scalable, high-performance web applications using React.js and Next.js. Specialized in creating reusable component systems, optimizing frontend performance, and integrating REST APIs. Proven ability to improve development efficiency and deliver responsive, user-centric interfaces in Agile environments.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3
- **UI & Styling:** Tailwind CSS, ShadCN/UI, MUI, Bootstrap, Ant Design
- **State & Data:** Redux, Zustand, React Hook Form, Zod, REST API Integration
- **Tools:** Git, GitHub, Storybook, Chrome DevTools, VS Code
- **Concepts:** Performance Optimization, SEO, Accessibility (WCAG), Responsive Design, Agile/Scrum

EXPERIENCE

- **1Lattice** May 2024 – Present
Frontend Developer Gurugram, India
 - Engineered scalable and high-performance web applications using React.js, Next.js, and TypeScript
 - Built a centralized reusable UI component library using Tailwind CSS, ShadCN/UI, and Storybook, improving development efficiency by **60%**
 - Optimized rendering performance using code-splitting and lazy loading, improving page load speed by **25%**
 - Implemented efficient state management using Redux and custom hooks for real-time UI updates
 - Integrated REST APIs with authentication and authorization, ensuring secure and reliable data flow
 - Enhanced SEO, accessibility (WCAG), and cross-browser compatibility for better user experience
- **1Lattice** March 2024 – May 2024
Software Developer Intern Gurugram, India
 - Contributed to frontend feature development using React.js and Next.js
 - Assisted in API integration and Redux-based state management
 - Participated in code reviews and debugging, improving application stability

PROJECTS

- **Agent Web Application Live | GitHub** React.js, Next.js, Redux
 - Designed scalable dashboard architecture handling real-time data updates
 - Optimized API handling and state management, improving UI responsiveness by **30%**
 - Built reusable and validated form systems using React Hook Form and Zod
- **Respondent Web Application Live | GitHub** React.js, Next.js
 - Developed responsive UI with REST API integration and authentication workflows

- Created reusable components, improving maintainability and development speed

- **MediQ Dashboard**

React.js

- Built real-time data dashboard with role-based access control
- Implemented advanced data visualizations (Sunburst, Marimekko charts)

- **1Lattice Website**

React.js, Next.js

- Developed SEO-optimized, responsive web pages with cross-browser compatibility

EDUCATION

- **Pranveer Singh Institute of Technology**

2020 – 2024

B.Sc Computer Science

Kanpur, India

- CGPA: 7.8/10
